Work Experience

PT Literasi Membebaskan Indonesia

Jakarta, Indonesia

Full-stack Developer Intern

Nov 2025 - June 2026

- Designed and built a web-based library system from scratch using Next.js, React, and Supabase, covering everything from user authentication to the admin dashboard
- Translated user and stakeholder needs into clear feature specifications through a structured requirements analysis process
- Designed database schemas and authentication flows to support the library's fully digital operations, replacing previously manual processes
- Improved the stability of key system features through repeated testing cycles and by addressing user feedback before release
- Created user guides and system documentation to help non-technical team members operate the system more easily

PT Anugerah Eka Gemilang

Bogor, Indonesia

Full-stack Developer Intern

July 2024 - Dec 2024

- Gathered system requirements through direct stakeholder interviews and observation of existing business processes
- Prepared functional requirements, Use Case, Activity Diagram, and ERD documentation as references.
- Developed the payment feature for the 'AIUEO' MICE website from design through deployment using Laravel and the Agile methodology
- Resolved all critical findings from black-box testing before deployment, ensuring the payment feature was ready for use without major bugs

SIGMA TV UNJ

Jakarta, Indonesia

Freelance WordPress Developer

Nov 2024 - Dec 2024

- Translated client needs into technical specifications for the organization's WordPress-based website
- Built a responsive website from its structure through the final visual design based on the organization's operational needs
- Tested and refined the website's appearance and functionality before launch to ensure it was ready for use without technical issue

Kukche Languages
Web Designer Intern

Bogor, Indonesia
Feb 2023 - Apr 2023

- Managed and developed the organization's website using Wix, covering both content structure and visual design
- Migrated the book catalog data to the new website system without data loss or disruption to ongoing operations
- Improved the website's navigation and visual structure to make it easier for visitors to use

Lembaga Bahasa LIA
Social Media Staff Intern

Jakarta, Indonesia
Nov 2023 - Dec 2023

- Researched trends and audience needs to support social media content planning and strategy
- Wrote content scripts and collaborated with the production team to create multi-platform campaign materials
- Analyzed published content performance and prepared recommendations for improving future content cycles

Other Projects

Project-based
Creative Director & Copywriter
University project with real clients

Bogor, Indonesia
2022 – 2023

- Led cross-functional collaboration between designers and animators to develop digital educational materials for UNESCO and Lembaga Bahasa LIA Cibinong
- Researched and developed content scripts tailored to the client's communication goals and target audience
- Served as the main point of contact with stakeholders throughout the revision process to ensure the final results aligned with the brief.

TalasCare - OLIVIA 2023
System Analyst & UI/UX Designer

Bogor, Indonesia
2023

University project submitted to Olimpiade Vokasi Indonesia (OLIVIA) 2023

- Analyzed user needs and translated them into clear system specifications
- Prepared functional documentation and system diagrams (DFD, ERD) as a foundation for website development
- Designed the website's visual interface in Figma as a direct reference for the development team
- Contributed to creating and conducting test cases with the team, as well as documenting testing results to validate system quality before implementation

Certifications & Publications

Sertifikat:

- SEAMEO TVET Exchange Programme Awardee (2022) - SEAMEO
- Software Engineer Certification (2025) - BNSP
- Legal Text Translation (2023) - Universitas Indonesia (UP2M) Teknik Elektro & RCAVe

Publikasi:

- *Pemanfaatan Aplikasi QGIS untuk Pemetaan Toko Obat Hama*, JsiI Vol. 11 No. 1 (Maret 2023) - Spatial mapping research covering 20 agricultural pesticide shop locations in Bogor using QGIS, resulting in an interactive web map
- *Penggunaan Aplikasi Duolingo sebagai Media Pembelajaran Tambahan Bahasa Jepang*, JPBJ Undiksha Vol. 1 No. 2 (Juli 2025) - Quantitative research measuring the effectiveness of Duolingo as an additional medium for Japanese language learning.
